Dear Sir,

Re: Taman Inquiry into the investigation and prosecution of Derek Harvey Zenk

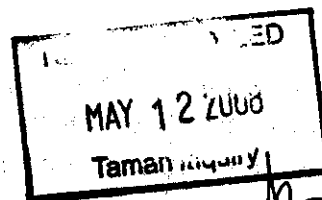

We have been contacted, and I have met with Mr. Wade Wawryk of G4S Security Services (your investigators for this inquiry). Mr. Wawryk has asked me to provide a description of the camera equipment that would have been in existence at our 7-Eleven Canada, Inc. Store known as Store # 26756, located at 1863 Henderson Highway, Winnipeg on February 25, 2005.

On that date, this store was equipped with a 4-camera, color, time lapse multiplexor system which recorded movement, and events inside this store of our employees, and customers. These recordings were kept for a period of 30 days; and then tapes were recorded over in a 30 day rotation. Except for some technical breakdown; and human errors that are experienced with the equipment from time to time; this service would have been available as noted.

I hope this information is of assistance, if more information is needed, please contact the undersigned.

Yours truly,

Arly R. Dobson
