RE:

At the end of February, I working with Selkirk Ambulance stationed out of Selkirk Hospital.

Around 7 AM. we were dispatched to an MVA on Hwy 59 at the south perimeter.

When we arrived about 15 minutes later Winnipeg Ambulance was already on scene.

Their medical supervisor told me the only person yet to be seen was a fellow in the back of the police truck. I hopped in the back with him. I asked him if he was hurt anywhere. I can't remember where he was hurt but it was minor and he didn't want to be treated or transported by us.

I got his personal information from him as well as his past medical history. This took about 5 minutes. He signed the release (10-2 form). He was looking pretty upset in the back and asked about the lady that he hit. I told him I wasn't sure because Winnipeg ambulance was taking care of her.

I noticed a smell of liquor coming from him and asked if he had been drinking that night or this morning. He didn't respond to the question.

NAME Edward John Rosser.

(copy 1/1/22)

and I left him at that. Then I left the truck.

Q - Was there an officer in the truck?

A - He was standing outside the truck when I first hopped in. I was asking the guy a few questions and the officer got out of the truck to talk to someone. While I waited for him to come back, I asked the male about the drinking.

Q - How strong was the smell of liquor?

A - not strong / strong but noticeable.

Q - Did you have any further conversation with this male?

A - no.

Q - Can you describe this male?

A - Younger guy, I think he was only about 30, athletic, good shape. Sandy short hair.

Q - Is there anything else?

A - not really.

A. Bohema # 47
