

On February 25th., 2005, I attended work at the East. St. Paul Police office at 0700 hrs., as the Chief of Police.

Shortly after my arrival at the station, I was informed by Cst. Graham, that he had just received a phone call from an unknown male, who reported a motor vehicle accident at Henderson Hwy and the north perimeter Highway.

I attended the scene with Cst. Graham as they could use as many people as possible attending the scene, due to the heavy traffic on the highway at that time of the day.

As we approached the north perimeter on highway 59 I noticed traffic congestion, and then observed Winnipeg Fire Paramedic Service on scene at a motor vehicle accident. I

I then noticed a small green colored car on the snowbank next to a lamp standard on the west side of the Highway just south of the intersection. I noticed damage to the rear of the vehicle. Paramedics were attending to the female driver of this vehicle.

I then noticed a small yellow vehicle in the middle Highway 59 facing east. This vehicle I observed to be a Chevrolet sprint. I observed what appeared to be a female in the drivers seat of the vehicle who appeared to have been pushed through the convertible roof of the vehicle. She was being attended to by paramedics.

I then noticed a pickup truck south of the yellow vehicle, and in the center ditch between the north and south bound lanes of travel on Highway 59. I walked toward this truck, and then I noticed a male standing at the front of the truck, then walking to the side, and then to the front of the truck again. I approached this male and I noticed some blood on his nose, and asked this male if he was okay. He appeared in a daze and quite distraught. I asked him if he was the driver of the truck and he indicated that he was. This male was looking down.

I then asked him to come with me and started to walk slowly with him to RM2 where Cst. Woychuk was standing. As I walked him there he said softly, , I'm a cop. I looked down at him and then said Derek?. I didn't recognize him at first. He worked on a shift in the north end where I worked before my retirement. He never worked on my shift and I rarely saw him.

I then walked him to where Cst. Woychuk who was standing outside of RM2. I told him to put the male inside the back of his vehicle as he was in a daze and distraught, and may have to have some medical attention. I also told Woychuk that I could not smell anything on this male as it was very cold outside. I told him to sit in the vehicle with him and see if he could detect any alcohol.in a more confined space.

I was also at this time attempting to get dispatch to call out further members, so that someone would be available to take calls, that might come in while the other members were tied up. I further asked for Sgt. Carter to be called out to deal with the station.

Dispatch was taking some time in making these contacts.

I then attended to a van stopped just north of the accident and spoke to the driver, a Garth Shaw who said that he was pulling up to the light in the westerly lane, and two cars were on his left stopped at the red light. He said that the pickup then passed by him on the left. He said flew by him and into the back of the yellow car. Shaw said the truck was going full speed. 80 for sure.

Woychuk had left for the station with the male in his vehicle.

I instructed Cst. Pedersen to attend Concordia Hospital to determine the injuries and condition of the two people taken to hospital.

I then attended to the blue pickup truck with Cst. Graham who searched the truck and seized a Winnipeg Police Uniform from the truck. This was seized to prevent it from coming into the wrong hands at the towing compound. Cst. Graham also stated that he could also smell an odor of liquor in the vehicle.

Cst, Graham and myself then shut down the intersection completely to preserve the scene and requested a traffic analyst, and the highways department attend to barricade off the intersection.

We remained at the scene assisting the analyst and cleared the scene at 1600 hrs., when the highway was re-opened.
